My Licensing Snapshot^{sm}

PROVIDING A SNAPSHOT OF YOUR SOFTWARE LICENSING SITUATION.

Provides you with a snapshot of your software licensing situation to improve your decision making process, avoid unnecessary risk and reduce costs.

Great way to kick-off your own internal Software Asset Management project.

Snapshot includes:
- Installation information
    - Detailed inventory review
    - Review of usage implications
    - Product Use Rights knowledge transfer
- Entitlements information
    - Research
    - Product Use Rights review
    - Upgrade tracing
- Non-inventoried software implications
    - Client access licenses
    - External use ramifications
    - Thin client implications
    - Server and workstation virtualization optimization
    - Subscription/Cloud management

Call for current pricing.

Provides you with the value of a licensing baseline – letting you know where you stand.
